ABOUT ME

Full-stack developer with 2+ years building and scaling production ed-tech platforms serving 25,000+ users, now working in cloud security engineering. Hands-on with GCP, AWS, Docker, and CSPM/SAST tooling (Prowler, ScoutSuite, Semgrep, Trivy) alongside React/Next.js, Node.js, and PostgreSQL.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Tailwind CSS,
- **Backend & Database:** Node.js, Supabase, PostgreSQL, MySQL
- **Cloud & Security:** GCP (Compute Engine, IAM) AWS (EC2, IAM), GCP, Docker, Linux, Cloud Security Posture (Prowler, ScoutSuite), SAST & Secrets Scanning (Semgrep, Trivy, Gitleaks)
- **Languages:** JavaScript (ES6+), Go, SQL, HTML, CSS
- **Tools:** Git, GitHub Actions, Vercel, cPanel, Razorpay, Google OAuth

WORK EXPERIENCE

Full-Stack Developer — IPM Career Group

JUNE 2024 — PRESENT

TensorShield ([tensorshield.in](#)) — Multi-Tenant Cloud Security Platform (GCP, Go, Next.js)

- Deployed and operated a production cloud-security platform on Google Cloud (migrated from AWS EC2); wired GitHub, AWS and GCP connectors running OSS scanners (Prowler, ScoutSuite, Semgrep, Trivy) across the cloud and code
- Built self-serve connector onboarding (role-ARN / project-ID) with per-platform issue dashboards; containerized scanners in a hardened Docker sandbox, published to GHCR.

Education Platforms — [GetEduNext](#), [Clattribe](#), [EduAbroad \(portal\)](#), [PrepTribe](#)

- Built and shipped four production platforms serving 25,000+ students, with Google OAuth, role-based access for students/mentors/admins, and shared authentication across subdomains.
- Developed two AI advisors (Medha AI, SAM AI) using the OpenAI API with RAG to answer college, scholarship, and visa queries in real time.
- Engineered a dynamic microsite generator producing SEO-optimized pages for 25,000+ institutions with live fee and eligibility syncing.
- Shipped 10+ admission prediction tools (CAT, JEE, NEET, XAT, NLU, AILET) used by 500+ students daily in result season, plus comparison and shortlist builders with persistent state.
- Integrated Razorpay for tier-based subscriptions and Vercel Analytics; SEO work took 50+ keywords to Google page one.

Web Developer — Avaomme Infotech

MAY-NOVEMBER(2023)

- Built client websites with a front-end focus, ensuring vision alignment; key project: Climate IIT ([climate.iitb.ac.in](#)) with responsive, data-driven pages.

FREELANCE PROJECTS

- **Web Pages** — [vlcceducation.com](#), [its-me-sarthak](#)
- **Google Ads (VLCC Franchises)** — *Kakadeo, Kidwai Nagar & Alambagh, Lucknow*: Optimized campaigns to improve ad-to-lead conversion rates
